

TRAJECT 4 SC™

HERBICIDE

Same effectiveness on tough weeds.
Same application flexibility.
All-new liquid formulation.

*Proven performance on tough weeds...
now in a convenient liquid formulation!*

TRAJECT 4 SC™ is Summit Agro USA's new Cloransulam product that comes in a convenient to use liquid formulation. TRAJECT 4 SC is equally effective at managing troublesome broadleaf weeds as other dry formulations of cloransulam. And TRAJECT 4 SC features the same broad application window on soybeans, allowing Growers to target both PRE and POST use timings. All of the power and flexibility Growers know, now with the added convenience of a liquid SC formulation.
